

Gets Right Twist On Rheumatism

Makes Short Work of Cleaning Out Your Entire System—Aches and Pains Go Fast.

In S. S. S. You Get a Twist on Rheumatism That Settles It.

Many a rheumatic sufferer has been to the drug store for a bottle of S. S. S. and been handed something claimed to be "just as good." Truly, to ask for bread and be given a stone is still in practice. If you are troubled with rheumatism in any form be sure to use S. S. S. and note its wonderful influence.

S. S. S. has the peculiar action of soaking through the intestines directly into the blood. In five minutes its influence is at work in every artery, vein and capillary. Every membrane, every organ of the body, every emunctory becomes in effect a filter to strain the blood of impurities. The stimulating properties of S. S. S. compel the skin, liver, bowels, kidneys, bladder to all work to the one end of casting out every irritating, every pain-inflicting atom of poison; it dislodges by irrigation all accumulations in the joints, causes acid secretions to dissolve, renders

them neutral and scatters those peculiar formations in the nerve centers that cause such mystifying and often baffling rheumatic pains.

And best of all this remarkable remedy is welcome to the weakest stomach. If you have dragged yourself until your stomach is nearly paralyzed, you will be astonished to find that S. S. S. gives no sensation but goes right to work. This is because it is a pure vegetable infusion, is taken naturally into your blood just as pure air is inhaled naturally into your lungs.

Get a bottle of S. S. S. today, and ask for S. S. S.

You may depend upon it that the store that sells you what you ask for is a good place to trade. Write to the Swift Specific Co., 304 Swift Bldg., Atlanta, Ga., for their Book on Rheumatism.

There is no law so high, no truth so pure, no idea so transcendental that may not be put in practice the very moment it is believed in, but then it must be vitally believed in. O. B. Frothingham.

U. OF O. GIVES TEST TO LOCAL PUPILS

As a part of the work being done by the University of Oregon extension department, every pupil in the Pendleton schools between the 4th and 9th grades inclusive yesterday underwent a dictation test for proficiency in capitalization, punctuation and spelling. The same test is being given to the pupils of all the schools in Oregon in an effort to determine the comparative standards.

The fable of Aesop, "The Fox and the Crow" was read to the class, which wrote down the sentences from the dictation. The papers will be marked 20 per cent for capitalization, 40 per cent for spelling and 40 per cent for punctuation. The local teachers will make their own gradings but the papers will afterwards be sent to the university where the real grading will be done.

The following is the dictation test and the directions under which it was held:

The Fox and the Crow.

Once a crow was sitting on a branch of a tree with a piece of cheese in her mouth.

A fox who wished to get the cheese said to her, "Good morning, Mrs. Crow. How glossy, bright and beautiful your feathers are. If the crow's voice is only as fine as her looks, she is surely the queen of birds. Will you sing for me?"

The crow lifted her head and began to caw. The fox snapped up the cheese and ran off.

"How foolish I've been," thought the crow, "to let him flatter me."

Directions to Dictator.

- 1—Read the entire to the class once.
- 2—Read entire sentence "1." Read to "with a piece." Give the signal, "Write."
- 3—Read remainder of sentence Give signal, "Write."
- 4—Read sentence "2" twice. Give signal to write.
- 5—Read sentence "3" twice. Give signal to write.
- 6—Read entire sentence "4." Read to "she is." Give signal to write.
- 7—Read remainder of sentence "4." Give signal to write.
- 8—Read the rest, a sentence at a time, reading each sentence twice before giving the signal to write.

BABY'S HEAD ITCHED AND BURNED

Red Pimple Grew Larger and Larger. Scratched Until It Bleed. Cured in a Week by Cuticura Soap and Ointment.

Burns, Wyo.—"The trouble began on my baby when she was about four months old. A red pimple was seen at first and it grew larger and larger all the time on the back of her head. It looked scaly and it itched and burned and she began to scratch it and scratched until it would bleed. Sometimes she could not sleep and felt pretty cross.

I tried different remedies, and other kinds but none of them would do any good. The trouble lasted till she was a year old and I saw an advertisement of Cuticura Soap and Ointment so I sent for some. First I washed the sore part with the Cuticura Soap and then applied the Cuticura Ointment and left it on for a while, then I washed it again with the Cuticura Soap. Cuticura Soap and Ointment cured the sore in a week without a scar." (Signed) Mrs. Otto F. Hecky, Nov. 22, 1912.

Back of the BUICK and every BUICK OWNER

An Automobile Factory and Service Organization of Almost Unbelievable Size—A nine-year record of surpassing power, reliability, durability and economy—One hundred and fifty thousand and enthusiastic owners—A National chain of Branch Houses and Service Stations close-linked—The pick of the country's substantial service-giving dealers—Every advance feature of design and equipment affords insurance against an obsolete car and slumping value.

Let your business judgment carefully weigh these and other merits of the Buick. The purchase and ownership of a car need not be only an expense. A Buick is an investment.

Look to the strength and assured permanence of the makers. Look to its record of service in any locality under all conditions of usage. Note particularly cost of upkeep—fuel and repairs.

Overhead Valves—More Power—Less Fuel

The greater power of the Buick overhead valve motor is guaranteed. Its greater mileage per gallon of gasoline is guaranteed. Its ability to use lower grade fuel is guaranteed. There is enough argument in this motor alone to carry your business judgment, for the largest automobile manufacturing concerns unqualifiedly make this statement: The Buick overhead valve motor is guaranteed to develop more power and give greater mileage per gallon of

fuel than any other motor of its size, either American or foreign make.

It's a part of every car, supremely dependable. Measures up to Buick standards in every detail of construction—and in performance. Built into the motor. Furnished at no extra cost.

SIX MODELS—4 AND 6 CYLINDER—LEFT DRIVE—CENTER CONTROL

There is a Buick model for every man who intends to buy any car. Look closely to each item of probable expense, compare carefully every detail, and the Buick will appeal to you as the logical car to buy. In making comparisons count what you get; count upkeep cost; count market value after months or years of use; count daily satisfaction in certainty of service, comfort, convenience, appearance and pride of ownership. Make your purchase a service investment.
